

tears wash away LOST YEARS

Over **100,000 children** are trapped in family court delays.

Cases meant to take 26 weeks drag on for nearly a **year – or more.**

Some children wait **two years** for a decision about their own lives.

35% of alienated parents haven't seen their child in over five years.

Each of these stats is a measurement of time lost.

Time a child could never get back,

Time a parent cannot replay.

These delays don't just affect legal outcomes.

They shape lives.
